SUMMARY (opsional)

Saya mahasiswi semester 1 dan Calon **Web Developer** yang sedang berkembang dengan pemahaman dasar dalam **Laravel, Livewire, Filament, dan HTML**. Memiliki minat besar dalam pengembangan aplikasi web yang interaktif dan mudah digunakan. Saat ini telah membangun **EduTask**, sebuah platform pengumpulan tugas kampus sebagai final project, yang menunjukkan kemampuan saya dalam mempelajari teknologi baru secara mandiri dan menerapkannya pada proyek nyata. Berkomitmen untuk terus belajar, meningkatkan keterampilan, serta siap berkontribusi dalam pengembangan web modern.

PENDIDIKAN

1-Politeknik IDN Bogor | Teknologi Rekayasa Perangkat Lunak | IPK: - *Jul 2025 - Sekarang* Bidang Minat: Pengembangan Web berbasis Laravel, Backend Engineering

***Pencapaian*:**

SUMMARY (Optional)

I am a first-semester college student and an aspiring Web Developer with a foundational understanding of Laravel, Livewire, Filament, and HTML. Highly passionate about building interactive and user-friendly web applications. I have developed **EduTask**, a campus assignment submission platform, as my final project—demonstrating my ability to learn new technologies independently and apply them to real projects. I am committed to continuous learning, skill enhancement, and contributing to modern web development.

EDUCATION

1. Politeknik IDN Bogor | Software Engineering Technology | GPA: -
   Jul 2025 – Present
   Field of Interest: Laravel-based Web Development, Backend Engineering
   Achievements:
   ● Completed EduTask, a Laravel Livewire–based final project.
   ● Gained foundational skills in Laravel, Filament, HTML, CSS, and Tailwind.
2. SMK Bhineka Nusantara (Banking Department)
   Jul 2022 – 2024

EXPERIENCE

Fullstack Web Developer – Personal / School Projects
Sept 2025

1. Developed several fullstack websites for various purposes, including:
   ● E-commerce platform
   ● Hotel management system
   ● Public complaint management system
   ● School admission (PPDB) system
2. Implemented both frontend and backend functionality using HTML, CSS, JavaScript, Tailwind, and various backend frameworks.
3. Led the development process of an educational game, from concept creation to workflow design and testing.
4. Conducted testing and debugging to ensure optimal user experience.
5. Applied project management and collaboration skills to deliver projects on time.
